

## Course Descriptions

### **GN 5410 Advanced Emergency Care Concepts for the Emergency Nurse Practitioner Clinician I (6.0 credit hours)**

Advanced emergency nursing embodies autonomous and collaborative practice with other health professionals to diagnose, treat, and manage acute conditions, exacerbation of chronic conditions, and urgent, minor illness, or emergent conditions across the lifespan. Evidenced-based approaches are utilized to develop critical thinking and to plan care for individuals and families that seek care in high acuity settings. Includes exploration of ethical, cultural, legal and regulatory frameworks that impact patient care. Students will develop and refine the clinical skills needed to meet the competencies in the advanced nursing role through practice experience.

### **GN 5420 Advanced Emergency Care Concepts for the Emergency Nurse Practitioner Clinician II (6.0 credit hours)**

Student utilizes evidenced-based approaches to develop critical thinking, assess, plan, and provide care for individuals across the lifespan and families in high-acuity settings. Includes exploration of trauma, intra-hospital, and inter-hospital transport. Students will develop and refine the clinical skills needed to meet the competencies in the advanced nursing role through practice experience.
